

IT Director

InSight Telepsychiatry – IT Department

InSight Telepsychiatry is seeking an IT Director to maintain stability and oversight of all technical operations. The right person for this roll will not be afraid to roll up their sleeves and dive-in to achieve goals and inspire the team. The successful candidate will be an advocate for positive change while maintaining 100% effectiveness.

Organization Overview

InSight is the leading national telepsychiatry service provider organization with a mission to transform access to quality behavioral health care through innovative applications of technology. InSight has two decades of experience with telepsychiatry, and serves hundreds of organizations across the country with its on-demand, scheduled, connected services and Inpathy divisions. InSight is uniquely positioned to offer scalable telepsychiatry services in settings across the continuum of care. InSight has a diverse provider team, a robust internal infrastructure and a history of adapting its programs to fit the needs of a variety of different settings and populations. www.InSightTelepsychiatry.com
