

Why Work for InSight?

The Advantages of Joining InSight's Administrative and Operational Support Team

A Mission-Driven Organization

InSight's mission is to increase access to quality behavioral health care through innovative applications of technology. At InSight, we believe that we have a solution to help improve the world and bring needed behavioral health services to individuals and communities that are underserved. Though not all of us directly deliver clinical services, the work of InSight's support and administrative team members is vitally important for accomplishing our mission. InSight team members are motivated by the "why" behind what we do.

Leaders in a Rapidly Growing Industry

InSight is the largest telepsychiatry organization in the country and leverages two decades of industry-experience to be thought-leaders and trendsetters in the field. Telemedicine and telehealth are now booming industries, and InSight is leading the expedition.

Friendly, Hard-working Organizational Culture

The InSight team is made up of go-getters. We work hard. We get things done. We don't shy away from a challenge or the innovation and learning it might take to tackle one. We also strive to make sure our go-getting attitude doesn't get in the way of teamwork, integrity or our consideration for our internal and external peers. InSight team members collaborate and often go out of our way to support colleagues and lend a helping hand.

Opportunity for Growth

InSight is rapidly-growing, which means there are lots of opportunities for professional development within the organization. InSight encourages team members to cross-train, learn from their peers and take opportunities to wear different hats in order to advance their careers.

Open to Innovation

The InSight team is a forward-thinking group. We are constantly looking for ways to improve our processes, grow as an organization and advance the telepsychiatry industry. InSight team members are encouraged to share their ideas, think creatively and cultivate innovation in our day-to-day work and future planning.
