

# TELEPSYCHIATRY CLINICIAN

## InSight + Regroup – Scheduled Services

### Position Summary

InSight + Regroup is hiring board certified and board eligible psychiatrists and psychiatric nurse practitioners for scheduled telepsychiatry positions in multiple states. As a leader in telepsychiatry, we are continuously expanding our network of clinicians, and strive to match clinicians with opportunities as efficiently as possible. Scheduled telepsychiatry clinicians work regularly set hours and build lasting relationships with a consistent patient base. Scheduled telepsychiatry clinicians work with onsite professionals to fully integrate behavioral health into the larger system of care within a facility and community. Additional services include the prescription, direction and administration of psychotherapeutic treatments or medications to treat mental, emotional or behavioral disorders and the ongoing collaboration with physicians, psychologists, social workers, psychiatric nurses or other professionals to discuss treatment plans and progress.

### Organization Overview

InSight + Regroup is the leading and largest telepsychiatry service provider in the US with a mission to transform access to quality behavioral health care. InSight + Regroup serves hundreds of organizations and individuals in various settings across the continuum of care with its on-demand, scheduled services and direct-to-consumer (Inpathy) divisions. Given its size, diversity of services and extensive experience and expertise, InSight + Regroup is uniquely positioned to enable scalable telepsychiatry programs across the care continuum. As an industry thought leader, InSight + Regroup has helped shape the field, define the standard of care and advocate for improved telepsychiatry-friendly regulations. ### Job Responsibilities

- Utilize televideo technology to diagnose and treat consumers with mental, emotional and behavioral disorders within outpatient settings, primarily within community mental health centers
- Provide a full range of psychiatric services via televideo technology to assigned patients, including: assessment, screening, diagnosis and treatment and determining the degree of disabilities
- Participate in treatment team activities
- Develop and review patient treatment plans
- All services are to be documented in the patient's electronic medical record

### **Job Requirements**

- Board certified or board eligible psychiatrists and psychiatric nurse practitioners with experience in providing services within outpatient settings
- Comfortable working from home
- Good interpersonal communication and leadership skills
- Must be able to successfully interact and collaborate with administrative, operational and medical staff remotely
- Telemedicine experience is preferred, but not required
- Multiple board certifications and state licenses preferred

### **Logistics**

- Full-time and part-time opportunities are available
- Overnight and weekend shifts are available
- Candidates work from a private home office where they will receive remote technical and administrative support
- All necessary equipment and technology will be provided
- Shifts and compensation vary by need and experience
- Employed positions with options for benefits
